

Seaboard Master Plan Design Charrette

July 31st – August 2nd

Venice City Hall in the Community Hall Room

What is a Charrette?

A charrette is basically a public visioning session. It provides an opportunity for citizens to join with planning professionals and brainstorm, sketch ideas, and collaborate regarding a specific project area. The charrette planned for the Seaboard Master Plan is scheduled to occur from 10AM to 4:30PM for three days, July 31st through August 2nd. The public, at their leisure, can stop in anytime to see the progress being made and actively participate in the vision for the area. Members of the public are especially encouraged to attend between the hours of 10AM and 1PM, as this time block will be topic-driven and will include a presentation each day. On Friday from 6 to 7:30PM, there will be a work-in-progress presentation to demonstrate the work that was accomplished over the three days. All are invited to come by and provide input on the vision for this exciting project. If you are unable to participate in the charrette, please provide your input on this website.
